SPLENDID OPERETTA
The operetta at the High School last evening, given under the auspices of the Parent-Teacher Association of the Central District, was a decided success in every particular. About 100 children took part in the operetta and all acquitted themselves in a very pleasing manner. The costumes of the different characters were designed by Mrs. Charles Fist and Miss Etta Porter. They were all very beautiful.

ANNOUNCED ENGAGEMENT

(Bracken Chronicle)
On Easter Sunday, at the residence of Mr. and Mrs. J. E. Wright, in Clifton, Cincinnati, during a family dinner, Miss Alice Caden and Mr. Summerville, who was a guest from his home in Virginia, quietly announced that May 16th would be the date of their marriage. Mr. and Mrs. Homer Ellis, of Maysville, and Miss Mille Caden, together with the family of Mr. and Mrs. Wright and the bride and groom to be were present. Owing to the recent bereavement in the loss of Miss Caden's mother, the marriage will be quietly celebrated. The people of Augusta are deeply attached to the Caden family, who have resided in our midst for years. Miss Alice Caden has host of friends and admirers who rejoice with her in anticipation of her happiness. Mr. Summerville

was engaged in an engineering contract on the C. & O. some years ago and resided in Augusta, at which time he met Miss Alice, and the romance has resulted in this happy consummation.

Miss Caden is quite well known in this city, having made several visits with her sister, Mrs. Homer D. Ellis. Her many friends will be greatly interested in the above announcement.

A THRILL AT PASTIME TODAY

Some show that the Pastime offers this afternoon and night, "The Valley of Lost Joy," a big sensational three-act feature with Romaline Fielding as the star; Helen Gibson in "A Daughter of Daring," railroad drama and Pokes and Jabs comedy. Two American flags given away tonight.

SANITATION DISCUSSED

At a Meeting of the Mason County Woman's Club at Their Headquarters on Sutton Street Yesterday Afternoon.

The most interesting meeting of the Mason County Woman's Club, presided over by Mrs. George Longnecker, was held in the club room on Sutton street yesterday afternoon at 2:30 o'clock. Business of previous meeting was turned over to the chairman of the Sanitation department of the Club, Madame Stanley Reed.

Mrs. Abner Holley opened the discussion in a most admirable talk. She was speaking particularly about bugs and germs. However, because of her wisdom and experience, she eschewed that side by enlarging upon health and light and air.

The chairman of the Board of Health, Mr. Frank Clarke, spoke very forcefully and in plain words presented his experiences in three years of service on the Board of Health and explained why so little had been accomplished during that time and how much could be done.

Dr. John Harbour, pastor of the First Presbyterian Church, spoke on conservation and economy and thrifit and cited many cases to substantiate his position. Then Mrs. George T. Hunter in a very witty, self-flaunting and highly interesting manner gave some facts which were both unusual and uncontroversial.

The balance of the afternoon was open to general discussions of the various subjects brought up, questions asked and answered, and altogether it was an afternoon of great profit and pleasure. Just before adjournment, a committee of citizens, was appointed to solicit vacant ground on which to plant gardens and thus not only to carry out the earthwide idea of "every fellow a gardener," but also to arouse municipal pride in our citizenship for thrifit and economy. If the admirable talks heard yesterday afternoon were to be excelled even half, then Maysville will this summer be cleaner and more beautiful than ever in her life.

NEW REDRYING PLANT

Will Doubtless Be Located in Maysville By the R. J. Reynolds Tobacco Co.—Liggett & Meyers May Follow Suit.

For the past several weeks there has been a great deal of talk about a new redrying plant, and possibly two, to be built in this city during the coming summer and fall. This rumor was well founded and there is but very little doubt now but that such a plant will be erected in Maysville.

Mr. J. C. Raines, secretary-treasurer of the Maysville Tobacco Association, recently wrote to the R. J. Reynolds Tobacco Company at their headquarters in Winston-Salem, North Carolina, asking if that company would erect a redrying plant in this city during the coming summer and fall and place a third set of buyers on the market next year in order to facilitate the handling of the immense amount of tobacco sold here. A reply from this company was received on Wednesday of this week.

In the reply to the letter of Mr. Raines the company states that plans for the erection of a redrying plant in Maysville are almost complete and they hope to build and equip the plant during the coming summer and fall. It is intimated in the letter that should the plant be erected, a third set of buyers would be placed on the market. They state that they are willing and anxious to do all in their power to facilitate the handling, in a business-like way, of all the tobacco that would naturally come to the Maysville market.

The Reynolds Company now maintains a buying office here, and annually buy a large amount of tobacco on this market. Some of the most competent men in the northern part of Kentucky are connected with the local

PUT THE COLONEL ON THE WORKS

If Germany carries out her announced intention of not making war on the United States, there is likely to be a decided sag in our enthusiasm within a very short time.

In this age, accustomed as we are to shocks and thrills, explosions and sensations, there is a constant appetite for the unusual, and any event or episode or propaganda, regardless of its proportions, which does not yield daily food for the inflamed imagination of the public must soon give way to something else, less important, perhaps, but for the moment more mentally intoxicating.

Whether Germany attacks us or not, the need for a tremendous defensive army is imperative, for no man can say what the future holds for either America or Europe, and so well identified has America become with the world at large that anything affects mankind in general must give us grave concern.

It is evident that the young men of the United States are not yet convinced that their nation is in immediate peril. They do not see opportunity for big fighting or stirring adventure. The humdrum of camp life, without prospect of excitement in the face of an enemy, does not make the blood run riot. Under present conditions, if an army of a million is to be recruited, the draft must be resorted to. That is realized at Washington. Army officers know it and the President is at last convinced of it.

In the absence of immediate prospect for war operations at home, there is but one way to enliven the interest so far as America's part is concerned and that is to give authority to some virile figure like Roosevelt to raise a division for service in France.

If the President will give Colonel Roosevelt a Major General's commission and put him into the field with power to raise an army and take the Stars and Stripes to Europe, this will create more enthusiasm and do more to inject activity in all of our preparations for defense than anything that could happen except invasion by a foreign foe.

It is noted by today's dispatches that Colonel Roosevelt is to have a conference with President Wilson with this end in view and it is to be hoped that the plan will succeed. There are thousands of young men in the United States who would volunteer for service in France. This is well indicated by the number of volunteers who have joined the Canadian regiments and are now fighting under foreign flags.

The average young man whose nature is responsive to the call to arms wants to see prospects of "things doing." He will not enlist for police duty nor will he volunteer to follow some tin soldier on dress parade. Surrounding a man like Roosevelt he sees the romance of war and begins to breathe the atmosphere which brings forth the vision of the "Three Guardsmen," and when such a leader sounds the bugle, the "boys" spring to their saddles and ride away, eager for the brilliancy and dash of the battlefield and hungry for even the hardships of war.

We have the men, we have the money and we will get the ships and guns. Put a real soldier like Wood or Roosevelt at the head of the American Legion and then watch the campfires as they begin to burn on every hill.—Lexington Leader.

EXACT CAUSE OF BLAST MAY NEVER BE LEARNED

Chester, Pa., April 12—Although organized experts from the War Department and representatives from the DuPont plant were today analyzing small fragments of black powder found at the scene of last Tuesday's explosion at the Eddystone Corporation's plant near here, no announcement of their possible discoveries was made tonight.

Officials representing federal, state, municipal and company inquiries were frank enough to say tonight that the exact cause may never be determined.

Several arrests by company guards of men found loitering about the scene of the explosion were made today, but none is considered important.

The latest reckoning of the human dead was 120. Of this number fifty-two have been identified. More than fifty are still reported missing, and the hospitals and armory reported a total of fifty-two injured still receiving treatment.

U. S. WILL BE FREE TO MAKE SEPARATE PEACE WHEN OWN AIMS ARE ACHIEVED

Washington, April 12—Official dispatches on the coming of the French and British commissions to discuss the conduct of the war only mention the possibility that General Joffre may accompany former Premier Viviani of France, but do not give any definite announcement.

While it is possible that joint sessions will be held, arrangements have not passed the preliminary stage and no decision has been reached. Discussion, it is indicated, will necessarily be confined to the very broadest phases.

An impression conveyed in some quarters that the Entente commissioners would seek to bind the United States to the general arrangement not to negotiate a separate peace is generally discounted here, though officials take care not to express themselves flatly an advance in a very thing that might be misunderstood by the Allies.

It has been stated that the United States will not enter into an alliance in the old world sense of the term, but will commit itself to unlimited participation in the war until the aims which President Wilson announced are achieved.

An impression has been created that the United States will feel itself free to judge when that moment has arrived and will not commit itself over and above its own aims in the war to an unlimited liability for territorial aims of the Allies. It is recognized that it would be difficult to convey this impression to the Entente without being misunderstood, and it is thought also the Entente commissioners are fully enough conversant with the American situation not to press the issue.

The British delegation which is expected to arrive in about ten days, will be headed by Foreign Minister Ballfour.

GERMAN SOCIALISTS PEACE MISSION TO RUSSIANS ENDS

Copenhagen, April 12—The mission of the German Socialist leader, Philipp Scheidemann, as had been anticipated, led him to the Scandinavian capital to confer with the Socialist leaders who are endeavoring to mediate between Russo-German Socialists with a view to bringing about peace.

Herr Scheidemann's visit to Copenhagen was managed with such care that his presence here was unknown except to big hosts until after his departure for Germany yesterday. Herr Scheidemann came here from Stockholm. So far as is known he met no Russians.

Chiropractic

(Pronounced Ki-ro-prak-tik)

Science of the Nerves

Perhaps you have never heard of Chiropractic, although this drugless system of restoring health is now 21 years old. Well, here are a few facts concerning it:

First: Chiropractic is a complete, scientific system for aiding nature, by spinal adjustments, to restore lost health without the use of drugs or the knife.

Second: No matter what organ may be affected, the skillful Chiropractor, by adjustment of the proper vertebrae, aids nature to remedy the affection.

Third: Chiropractic is unlike any other method for regaining lost health. There are a number of Chiropractic Colleges in the United States teaching the "Science of the Nerves." Ask for booklet.

CHANGE CERTAIN IN SPY MEAS. URE—SECTION RELATING TO FREE SPEECH WILL BE REVISED

Washington, April 12—Revision of the administration spy bill to meet some of the objections of the advocates of free speech without impairing its effectiveness is understood to have been decided upon by the House Judiciary Committee. Hearings on the measure were closed today, after Miss Jane Addams and others had criticised certain features.

The section most generally attacked, prohibiting persons from making speeches or publishing articles causing "disaffection" in the army or navy, is certain to be changed. The language will be amended, according to present plans, to apply only to persons who would cause mutinies, desertion or other defections among the land or sea forces.

Changes also are contemplated in a section which would prohibit obtaining and disseminating information about the land and sea forces. As drafted, opponents of the measure have insisted that innocent citizens might be punished for sight-seeing at forts or navy yards or printing pictures of naval equipment. This section, according to present plans, probably will be changed to apply to prohibitions made in presidential proclamations.

General revision of other parts of the measure to make them more specific is proposed. The chief objection made to the measure has been that it was too broad and general in its terms. The revision, it is believed, will be completed within a few days and it will be reported probably early next week.

FARM PAPERS URGED TO AID IN FOOD CAMPAIGN

Washington, April 12—To further its campaign for food conservation during the war, the Agricultural Department today ordered distribution throughout the country of the resolutions adopted at the St. Louis conference of agricultural experts, urging enlistment of 2,000,000 boys to aid in increasing production and a Federal appropriation of \$25,000,000 to meet the extraordinary need of agriculture.

Secretary Houston, who attended the St. Louis meeting, attaches great importance to the resulting campaign among editors of agricultural papers, professors of agriculture and others for immediate mobilization of food production resources.

It is urged that there be created under the Council of National Defense a relatively small central agricultural body to remain in Washington and supervise agricultural matters, a large national advisory body, a small central agricultural body in each state, and county, urban and other local bodies.

Detailed recommendations are made for increasing the acreage in spring wheat in the Northern states, the corn acre and the production of oats, sorghum, barley, buckwheat, navy beans, potatoes, sweet potatoes, peanuts and animal products.

The Jones Quartette will sing "Wake Up America."

Patriotic songs will be sung.

Mrs. Cornelia Jones will give the reading, "The Star Spangled Banner."

Old Glory will be unfurled.

Several addresses on "Patriotism" will be delivered.

CRYING FOR HELP

Lots of It in Maysville Hut Daily Growing Less

The kidneys often cry for help. Not another organ in the whole body more delicately constructed. Not one more important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble.

It is often the kidney's cry for help. Used it.

Read what Dean's Kidney Pills have done for overworked kidneys.

Read what Dean's have done for Maysville people.

Mrs. E. Sphar, E. Sphar, and Walnut Sts., Maysville, says: "Whenever I have heard anyone complain of their kidneys, I have never seen them Dean's Kidney Pills fail to help them. I have been greatly benefitted by them myself. At times, my back has ached and I have suffered from lameness through the small of my back. When I have been in that way, I have used a box or so of Dean's Kidney Pills, which I get at Chaslor's Drug Store. They have always quickly removed the trouble."

Mrs. Sphar is only one of many Maysville people who have gratefully endorsed Dean's Kidney Pills.

WAR BONDS BILL

Will be Passed in the House of Representatives Today—Partisan Spirit Absent in Debate.

Washington, April 13—Eight hours of debate on the \$7,000,000,000 war revenue bill in the House today developed so little opposition that passage of it tomorrow by an almost unanimous vote became a certainty. Action in the Senate probably will follow early next week.

When the House adjourned at 7 o'clock tonight general debate had closed and the leaders had agreed to begin discussion of amendments under the five-minute rule at 11 o'clock tomorrow morning. The vote probably will be taken early in the afternoon.

Amendments approved today by Secretary McAdoo to limit specifically distribution of the proposed \$3,000,000,000 foreign loan which the bill would authorize to countries actually at war with Germany and only during hostilities will be added to the measure. Representative Lenroot, of Wisconsin, and others insisted today that without these limitations the Secretary of the Treasury might make loans to European neutrals immediately or continue loans to other countries after the close of the war.

Framers of the bill insisted that such a course never would be considered, but they finally agreed to insert the specific provision.

Absence of partisan spirit marked the debate. Democratic Leader Kitchin and Representative Fordney, of Michigan, who for years had battled from opposite sides of the House on financial questions, particularly the tariff, were the principal supporters of the measure. Efforts to inject political discussions into the debate and swerve the leaders off the tariff and other issues were unavailing. They went straight ahead, urging always the necessity of immediate action.

Attention accorded the speakers was unusual. Scores of questions were propounded to them and keenest interest was displayed in the intricacies of the measure.

An ovation was accorded Mr. Kitchin when he opened debate in behalf of the bill. He explained that the measure called a proposed bond issue of \$5,000,000,000, out of the proceeds of which \$3,000,000,000 was to be loaned to the Allies with their bonds as security, the remaining \$2,000,000,000 obtained from the sale of bonds to be added to the proceeds of a proposed \$2,000,000,000 certificate of indebtedness issue and expended in the prosecution of the war by the United States. All of the issued bonds will carry 3½ per cent interest.

\$3,000 JUDGMENT

Given John J. DeAtley by a Jury Yesterday Morning in the Mason Circuit Court—Case had been to Supreme Court.

In the Mason Circuit Court yesterday a jury composed of Messrs. C. C. Arthur, L. M. Collins, H. H. Barkley, A. D. Raina, George Hook, George Parillo, J. P. Marshall, J. D. Beckett, Jack Hendrickson, L. C. Parker, H. W. Hood and Frank Rice, returned a verdict for the plaintiff in the case of John DeAtley vs. the C. & O. Railroad in the sum of \$3,000. The case had been occupying the attention of the court for three days.

DeAtley suffered the loss of a foot several years ago when attempting to catch manifest train No. 95 near the old station at the Fair Ground. He was attempting to catch the train, which had stopped at the coal docks, which were then located at the upper brick yards, about a quarter of a mile east of where they now are. The train was passing the Fair Ground at a very rapid rate and in attempting to catch it Mr. DeAtley's foot slipped and he fell under the trucks of the engine tender.

The case occupied much attention when first brought up in the Mason Circuit Court soon after the accident. He was awarded \$9400 but the case was carried into the Court of Appeals and later into the United States Supreme Court, where it was remanded to the Mason Circuit Court.

All members of Limestone Lodge No. 36, are requested to meet at Castle Hall, Sunday evening, April 15, at 7 p. m. to march to the First Baptist Church, where Patriotic services will be held.

"WILL SELL THE EARTH"

THE NATIONAL ANTHEM

IS Not Properly Revered in Maysville as in Other Cities—Persons Should Stand When It Is Being Played.

We feel it our duty to call the attention of Maysville people to the fact that they do not show a proper respect for the national anthem, or the song that is usually regarded as the national anthem, "The Star Spangled Banner."

On Thursday night we were present at the Washington Opera House to witness "The Crisis," a picture of Civil War times. We were informed previously to the arrival of the picture in this city that a number of songs of that period would be played and other well known old time songs. The first few feet of the first film showed the American flag and the orchestra began to play "The Star Spangled Banner."

We heard with great satisfaction the loud applause of the audience, many shouting their approval but we noticed that but a few rose to their feet when the national song was played.

From our position in the balcony, which had a large number of persons seated there, we saw only about a score of persons rise.

There is a great deal of talk heard everywhere now concerning love of country, its flag and all of its institutions. One of the greatest things about a country is its national song.

The great French anthem, "The Marianne" is it said, will stir the French people a great deal more than the speeches of half dozen orators.

Certainly the American people should not be behind in this respect.

Several days ago we were talking with a gentleman concerning the big patriotic meeting held on last Sunday afternoon. He said that he was greatly surprised to see the people of Maysville leaving the building while the national song was being sung. He said, however, he had noticed that it was a custom of Maysville people, to leave a building during the close of an entertainment, he thought probably because

the persons wished to show their wisdom that the program was over.

In other cities the national anthem is revered as is the flag. Why not in Maysville?

MANY ATTENDED DANCE

The dance last evening at the Neptune Hall, given by the young ladies of the Settlement Club, drew a large crowd. Music was furnished by Smith's Quartet of Versailles, Ky. A very neat sum was realized by the Settlement Club, which money will be used in its work.
